Subject: Microsoft Settlement

While I m no real strong fan of Microsoft the government s case against the company is nothing more than a class warfare witch hunt promulgated by the Clinton Administration and carried forward by Janet Reno. This act alone was largely responsible for high tech stocks to plummet in value. Bill Gates and his cohorts are a prime example of ordinary people accomplish-ing extraordinary things in our capitalistic society. What Microsoft has REALLY done is to pioneer and encourage others (a.k.a the competition) to pioneer inno- vative breakthroughs in computer technology that has brought us consumers better products at the lowest possible prices. If the Microsoft s competition can t stand the heat of competition they should look for another line of work. We had a saying back home: If you can t run with the big dogs then stay on the porch! And the government should end this nonsense NOW and get out of the way of capitalism at work. Uncle Sam has done enough harm to consumers with the wrong-headed persecution of Bill Gate et al.
